Work History

React JS Intern   June 2024 - August 2024
Celebal Technologies   *Jaipur*

- Successfully completed a 2-month internship focusing on React JS development.
- Worked on various front-end projects, contributing to the development and optimization of user interfaces.
- Demonstrated strong problem-solving skills and enthusiasm for learning new technologies.

Projects

ComicKaze   Live View

- **ComicKaze** is an ecommerce platform built on WordPress, specializing in anime merchandise. With its sleek design and user-friendly interface, it caters to anime enthusiasts by offering a wide range of products. Utilizing Elementor for customization, the platform provides a seamless shopping experience for users.

Aquaregia   Live View

- **Aquaregia** is designed to promote college fest events and engage the audience. Built with HTML, CSS, JavaScript, Node.js, and MongoDB integration, it provides comprehensive information about the fest's activities while allowing interaction with attendees. Its intuitive design ensures a smooth navigation experience for visitors.

Pexelicons   Live View

- **Pexelicons** offers personalized folder icons for Windows users, allowing them to customize their PC experience. Created using HTML, CSS, and JavaScript, the website showcases a collection of custom icons designed with Figma. Users can easily browse and select icons to enhance their desktop aesthetics.

QR Generator   Live View

- **QR Generator** is a user-friendly website that simplifies the process of generating QR codes. Utilizing HTML, CSS, and JavaScript, the platform seamlessly encodes text into QR codes. Integrated with a QR API, users can effortlessly create QR codes for various purposes, ensuring convenience and efficiency.
